

The logo for AS INDUSTRIES, featuring the company name in a bold, blue, sans-serif font. A horizontal line is positioned below the text, and the word "ESTD.1972" is written in a smaller font to the right of the line.

AS INDUSTRIES

ESTD.1972

An ISO: 9001:2015 Certified Company

The background of the slide is a composite image. The top left shows a close-up of several interlocking metal gears. The bottom right shows a welder wearing a protective mask and gloves, working on a metal component, with bright sparks flying from the welding point. The bottom left features a faint, light blue pattern of various gear designs.

We are an

ISO: 9001:2015 Certified

Company in India with our core activities related to manufacturing and

Precision Engineering Component Manufactures since past 51 years.

Welcome to A.S Industries

A.S Industries stands as a preeminent manufacturer of Precision Engineering Components, a legacy that spans over five decades. Our commitment to excellence has made us the preferred Original Equipment Manufacturer (OEM) for numerous multinational corporations, relying on our expertise for their precision component needs. Our foundation is built upon the pillars of unwavering quality and punctual deliveries.

Our state-of-the-art workshop facility is equipped with a range of cutting-edge machinery, including VMC, HMC and other machinery, ensuring that we cater to your needs with utmost efficiency. We specialize in crafting Highly Precision Engineering Components,

tailored to the exacting specifications of our esteemed clients. Throughout the past several decades, we have forged a distinct identity in the fiercely competitive market, a feat made possible by our adaptable business approach, ethical standards, and unmatched commitment to quality assurance.

QUALITY POLICY

"At A.S Industries, our motto is unwavering: the pursuit of the finest product quality and precision without compromise, all while offering competitive pricing. Our dedicated team takes pride in delivering 'Zero' Defect Products through meticulous inspection at every stage of production, perpetually striving for improvement at all levels, and adhering to the exacting requirements of our clients through the effective implementation of a Quality Management System. In addition, we are steadfast in our commitment to promoting a Clean and Green Environment."

Our Mission

Our mission is to pioneer ingenious, efficient, and cost-effective solutions, infusing innovation into the field of engineering. We achieve this by fostering creative ideas and wholeheartedly dedicating ourselves to delivering 100% accuracy in our work, culminating in superior outcomes.

Our Vision

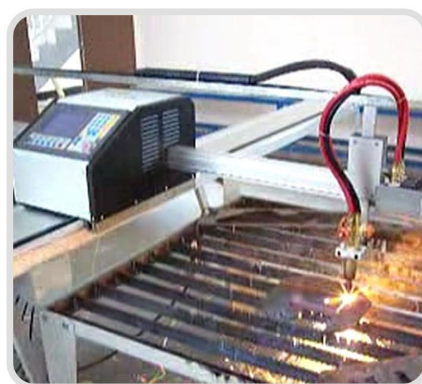

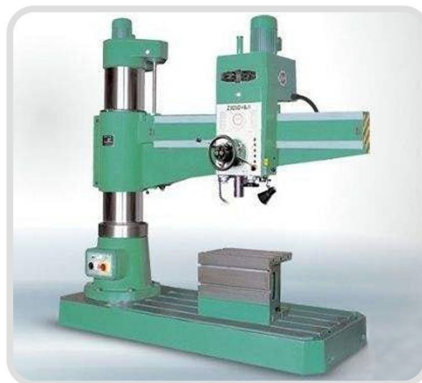

Our vision is to establish ourselves as the preeminent service provider in the fiercely competitive landscape of precision engineering component manufacturing.

Our Expertise

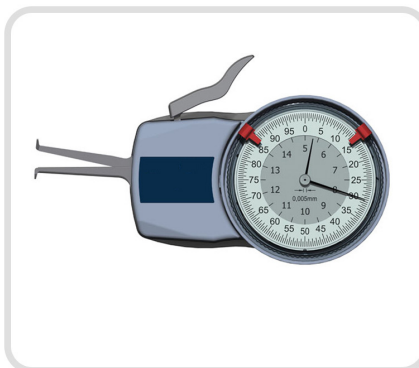

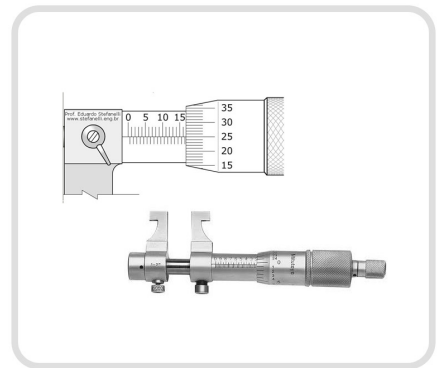

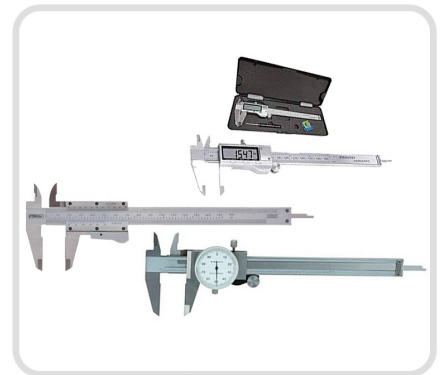

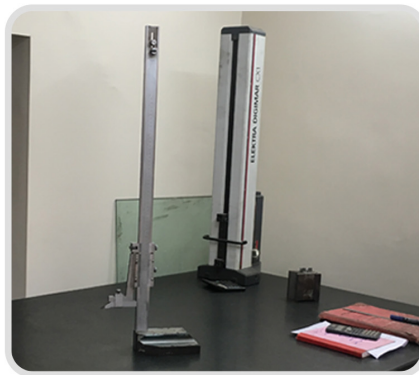

A.S. Industries possesses the production capabilities to manufacture an extensive range of components, including Boring, Turning, Shaping, Milling, Grinding, Laser Cutting, Profile Cutting, Gas Cutting, and Precision Fabrication. Our components have earned a reputation for their effectiveness and affordability, underpinned by the company's commitment to manufacturing quality and robust management processes, including stringent component quality checks at every stage of production.

MACHINERY

INSPECTION FACILITIES

Our company is fortified by a team of highly experienced engineers dedicated to upholding the precision of our components. They employ cutting-edge measuring instruments such as Precision Height Gauges, Granite Surface Plates, Dial Vernier Calipers, Digital Micrometers, Dial Indicators, Depth Verniers, Bore Gauges, Slip Gauges, Plug Gauges, Parallel Blocks, and more, ensuring the meticulous preparation of our components.

PRECISION COMPONENTS MANUFACTURING

We proudly serve as a leading manufacturer and supplier of highly precise machined components crafted from both ferrous and non-ferrous metals. Our specialization extends to precision machining across a diverse range of materials, including Mild Steel, Stainless Steel, Medium Carbon Steel, High Tensile Alloy Steel, Aluminum, Alloys, Copper, Casting components, pressure die-casted components, forging parts, and more—all crafted in accordance with international standards. The Precision Machining division, equipped with a comprehensive metrology setup, is poised for rapid growth in response to the ever-increasing demand from our valued customers.

INFRASTRUCTURE

Our impressive infrastructure encompasses more than 20,000 square feet of meticulously constructed manufacturing facilities, with ample power supply across three distinct workshops. These facilities are further enhanced by modern machinery and an extensive array of precision measuring instruments to meet the exacting demands of our discerning clientele.
